"The UK has an exceptional legacy of healthcare and HealthTech innovation, and we are particularly excited to showcase this pedigree on the international stage at Global Health 2024. This is our second time at the show, and it is clear that it is going to be even bigger and better. As part of the UK Pavilion, delegates will experience a range of cutting-edge medical devices, diagnostic tools, and digital health technologies, all poised to support the thriving Saudi Arabian market and the wider MENA region."

Fostering Innovation to Shape the Future of Healthcare

Vision NextGen

Join us to witness bold innovators and fearless startups transforming the industry with their groundbreaking ideas and cutting-edge solutions.

Vision NextGen (previously known as Innov8) will bring together visionaries, entrepreneurs, and change-makers to address some of the world's most pressing health challenges.

This competition offers a unique platform for showcasing groundbreaking ideas and connecting with key stakeholders in the health sector.

Supported By

مستشفى صحة الافتراضي
SEHA VIRTUAL HOSPITAL

We're incredibly proud to have won last year's competition at Global Health. This achievement not only brought us valuable attention from the Ministry of Healthcare of KSA, leading to an ongoing collaboration, but also motivated us to push our boundaries even further. We sincerely thank the organizers for this remarkable opportunity. ”

SEHA Virtual Hospital

مستشفى صحة الافتراضي
SEHA VIRTUAL HOSPITAL

Hall 3

SEHA virtual hospital returns this year showcasing its commitment to advancing healthcare through technology, innovation, and interactive learning

Design Thinking Workshop

Aimed at healthcare professionals and innovators, this workshop will develop innovative solutions for health challenges, led by experts in design thinking and creativity

Interactive Tunnel

Immerse yourself in SEHA Virtual Hospital's cutting-edge services, offering a glimpse into the future of virtual healthcare.

Virtual Health Advisor

Discover how prevention is becoming a priority service, where wearable IoT devices help monitor at-risk individuals to prevent chronic diseases.

Get hands-on with the latest tech at the **Interactive Solutions** showcase, and witness real-world innovation at the **Sandbox Booth**, where new health solutions are tested for compliance and readiness.

Art Therapy Workshop

Join interactive sessions where art becomes a powerful tool for enhancing mental and psychological well-being. Experience this globally recognized approach to therapy, offering innovative and unique opportunities for personal growth and recovery.

Co Creation Hub

Located in Riyadh's Digital City, the Co-Creation Hub serves as a collaborative space where partners unite to incubate ideas, drive innovation, brainstorm solutions, and tackle challenges together.

 Location : Hall 2

Personalised Care

AI Based solutions for Early Disease Detection, Guided Care, Digital Twin and Population Health Management

Virtual Health

Advanced Virtual Health solutions promoting accessibility, affordability and quality care.

Digital Human

Digital Human technology showcasing AI based brain used in multiple healthcare scenarios

Command Center

Next Generation Command Centers featuring Metaverse Technologies, Decision Automation and Integrated operations

Under the theme **Reimagined Health Tomorrow**, the Co-Creation Hub will showcase the following technologies at Global Health Exhibition this year.

Wellness Awaits

In Partnership with:

Step into the Wellness and Mindfulness Zone at the Global Health Exhibition, where preventative health comes to life!

Get ready for an exciting lineup of interactive sessions on **nutrition, exercise, and mental well-being**. Dive into hands-on **workshops** that will inspire you to embrace balanced diets, fun fitness routines, and powerful mindfulness techniques. Discover practical, **life-changing tools** to boost your health and prevent illness—showing how small lifestyle choices can make a big impact on your overall well-being.

Indepth body analysis

Meditation sessions

Nutrition and wellness talks

Live Well

Supported by:

Initiative led by Ministry of Health highlighting the importance of adopting a healthy lifestyle through:

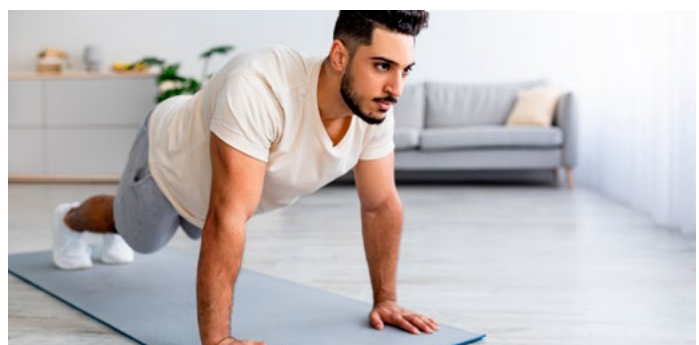

Sports Zone: Partnering with the Saudi Arabian Federation for Sports to bring a range of dynamic activities

Children's Mental Health Hub: Promoting mental well-being through engaging physical activities

Influencer Theater: Featuring talks from influential and specialized personalities

Healthy Home Corner: Innovative ideas for fostering a healthy lifestyle at home

Medical Escape Room at Global Health Exhibition

WOW FACTOR

First of its kind in the region, blending the thrill of an escape room with the intrigue and challenge of medical scenarios.

The Escape Room offers an engaging, onsite experience that challenges participants to solve realistic scenarios and mysteries in order to “escape” within a set time period.

Participants will discover a rich, dynamic world filled with intricate puzzles, hidden clues, and unexpected twists as you step into our meticulously crafted environment.

The escape room seamlessly combines fun with learning, providing a unique and unforgettable immersive experience.
